

Dear Parents and Guardians,

Ms Moynihan, the PA and some parent volunteers, 'The Garden Angels,' are currently updating the Sensory Garden and would appreciate any help that you may be able to provide. The garden has been used as an outdoor classroom for some years and is especially important this year. We are replacing the stones with rounded pebbles and artificial grass to make it softer under foot; re-painting containers and replacing some plants.

We would like to add more seating and other objects of interest (vertical planting, bird houses, fairy garden, musical items) that you may be able to help with it. We are including some ideas below that we think would work and we would also like to hear about anything else you can make that you think would be suitable.

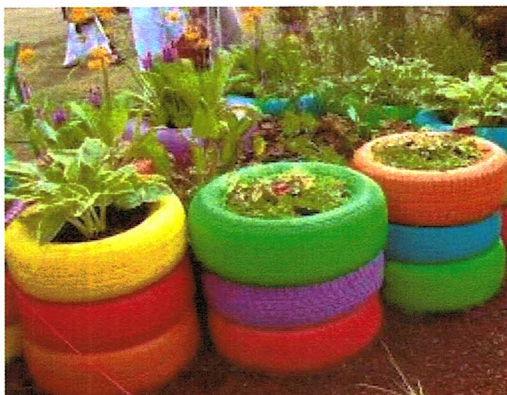

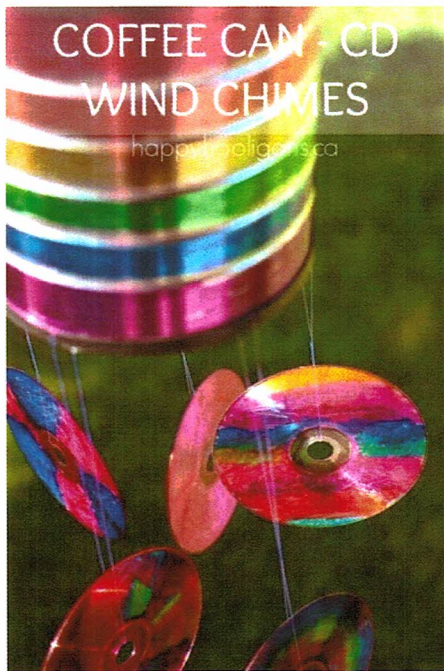

Please feel free to contact us if you have any ideas or queries:
